## **Building Ecosystem to Create Innovation in Life Science**

LINK-J (Life Science Innovation Network Japan) builds platforms centered in Nihonbashi for networking and exchanging information with people around the world. We serve people involved in life science research and its industry in the broad sense including preventative, presymptomatic and health and longevity medicine such as regenerative medicine, precision medicine, drug development, medical devices and healthcare IT.

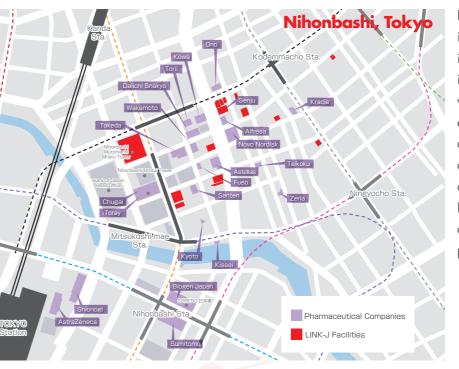

By encouraging the activation and creation of an innovative life science industry in Japan and the world, we contribute to the larger vision of a society where we can live healthily and happily.

## Meet with key operators. Attend events & programs to aid product development of your concepts.

## Nihonbashi, Tokyo and Doshomachi, Osaka have been pharmaceutical districts for 400 years.

LINK-J is based in Nihonbashi, the historic area of Tokyo where Japan's leading pharmaceutical companies were headquartered in for the past 400 years and where expertise in the life science field come together.

Nihonbashi is located in central Tokyo, where information, people and investors meet from all over the world. Visitors enjoy the urban environment which gives them access to many commercial and accomodation. We create and distribute information from Nihonbashi, this historically and geographically unique place.

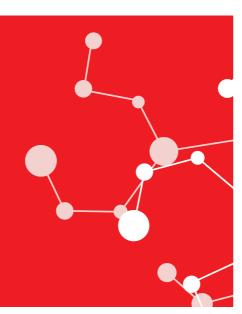

Many top Japanese Pharmaceuticals have their roots in Doshomachi, Osaka. There are also many excellent life sciences related to universities and research organizations in this area.

LINK-J further accelerates the real exchange between people across fields in this area where a variety of life science-related businesses, such as pharmaceutical, medical equipment, regenerative medicine, and health related service, are being developed through the mutual cooperation between industry, academia and government.

Map of Japan Pharmaceutical Manufacturers Association member organizations and companies.

## EVENTS & PROGRAMS

LINK-J creates networking and collaboration opportunities (Steps 1 & 2 : Listed on Page 1) and guiding and supporting (Steps 3 & 4 : Listed on Page 1) activities to build an ecosystem that fosters innovation.

We help commercialize or develop ideas and concepts into products by organically connecting key players in the life science field such as startups, large corporations, academia and venture capital through organizing events and programs.

834+ Events/year including 595 virtual events

## Large Symposiums

We organize symposiums with 300-500 attendees throughout the year. We invite persons who are active in the forefront in the life science field to discuss wide-ranging issues related to regenerative medicine, Al, medical devices, genomes, cancer, etc.

- Industry-Government-Academia Regenerative Medicine Symposium (2016 - 2022)
- MEDTEC INNOVATION Symposium & Pitch (2018-2021)
- Innovation in Cancer Medicine (2019)
- Cell Therapy and Gene Therapy-Beyond Gene Analysis- (2020)
- Frontier in Drug Discovery (2021-2023)

## **Networkings**

We host networking events with LINK-J Supporters, who are entrepreneurs and experienced professionals in the fields of research and development, management, law and finance. We also host and co-host many global-scale events and receptions with international universities and corporations such as UC San Diego and many European and North American organizations.

## Networking Events

- Japan Night
- GLOBAL LIFE SCIENCE SESSION
- Global VC's Perspective on Japan
- Advanced Therapy Showcase in Tokyo (ATST)
- LINK-J & UC San Diego Joint Webinar Series

## **Business Tours**

We regularly host tours to visit the world's life science clusters. You can experience each region's cutting-edge research and network.

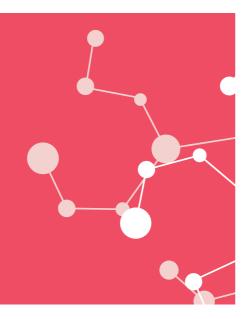

- Singapore Life Science Business Tour
- Eurobiomed Southern France Business Tour
- San Diego Tour

## **Acceleration Programs**

We organize programs such as "Out of Box Consulting Room" to discuss research concepts for free and "SANDBOX" which creates results through collaboration with students and youth from diverse backgrounds. We also organize our own pitch contest as well as co-sponsor entrepreneurial support programs hosted by venture capital and accelerators with complementary agendas such as "X-DOJO" (Sponsor: INDEE Japan Ltd.) and "BRAVE" (Sponsor: Beyond Next Ventures).

## **MEMBERS**

Top players in the life science field from around the world are joining LINK-J. You derive all the benefits of being our member.

700+ Members

## Number of members

A wide range of key players from industry, government and academia have joined us. Fields represented include pharmaceuticals, regenerative medicine, medical devices, education and research, healthcare services, consulting, venture capital, intellectual property and law.(as of SEP 2023)

Membership A 98

Membership B 468

Membership C 148

## Medical and social services: 2% Medical IT Services 11% Medical and testing devices 14% Education and research 14% Consulting 17%

566 in Total

## Types of Membership

There are 3 types of LINK-J memberships: A, B, C. Membership A is for corporations with 100+ employees. Membership B is for corporations with up to 100 employees including startups and non-profit organizations (Universities, Research institutes). Membership C is for individuals.

The A and B memberships allow the member organizations to use conference rooms and temporary working rooms for hosting meetings, events and receptions.

## Membership A

Corporations with 100+ employees

Enrollment fee: 100,000 yen Annual fee: 500,000 yen

## Membership B

(Corporations and NPOs)

· Corporations with up to 100 employees

 Non-profit organizations (Universities, Research institutes)

> Enrollment fee: 30,000 yen Annual fee: 120,000 yen

## Membership C

(Individuals)

- Individuals such as doctors, employees, providers of corporations and organizations
- Employees and providers of non-profit organizations
- · College and graduate students

Enrollment fee: 2,000 yen Annual fee: 3,000-30,000 yen

## Benefits

## 1 Networking & Collaboration Service

Special members may participate in various "events & programs" hosted by LINK-J and organize "joint events" for other LINK-J members to attend.

## 3 Promoting Service

Promote your business through newsletters and press releases for members on the LINK-J website, etc.

## 2 Grow & Support Service

We will provide support in discussions with sponsors, startup acceleration programs, and communication between members.

## 4 Spaces to Interact

Special members may use our exclusive communication lounges, conference rooms, and more.

About Special Membership

## COLLABORATIONS

LINK-J will continue to provide valuable information and increased chances for networking in collaboration with renowned institutions, organizations and universities across the world.

17 Collaborations

## Domestic and International Collaborations

We have agreed on partnering with 16 organizations around the world. We collaborate through hosting / joint hosting and / or sponsorship of programs and events, exchanging information, providing services to each member, visiting and collaborating on advertisements.

Date of MOU signed	Name of organization	
May 2016	University of California, San Diego (UCSD), USA	UC San Diego

## ORGANIZATIONS

Our activities are supported by Management Advisory Committee members and Supporters who possess specialized expertise and experience.

The Management Advisory Committee is composed of industry leaders who strongly support us with their broad-based knowledge and experience. They also offer strategic advice to the Board of Directors.

LINK-J has a number of Supporters, people with knowledge spanning diverse fields and whose skill sets range from research and development to management, law and finance. Our Supporters, who include entrepreneurs and experts, participate in many events that we organize together and offer one-on-one advice to LINK-J special members.

## **FACILITIES**

We operate conference rooms and communication lounges exclusively for LINK-J members located in the middle of Nihonbashi, central business district. We help you build new networks and create your business in a bright and open atmosphere.

16+ Buildings

## **Conference Rooms**

There are rooms of various sizes that can be used for meetings, lectures, seminars, happy hours and special events, etc. These spaces are also equipped with sound and audio-visual facilities necessary for presentations. (Some incur extra charges)

## Communication Lounges

The LINK-J Communication Lounge is exclusively for members. There are books, complementary drinks and snacks. Lounge on the 10th floor in Nihonbashi Life Science Building and foyer area of the Nihonbashi Life Science Hub is available for meets-and-greets and receptions, etc.

## **Temporary Working Rooms**

On the 3rd floor of Nihonbashi Life Science Building, there are rooms that can be reserved on a per-day basis. (Up to 7 days)

## Serviced Offices

From secured individual booths to open plan, we offer a widerange of possibilities and are pleased to accommodate your needs. These offices are furnished and it is available to register this location as your office. Since no deposit is required, the initial cost can be kept low.

## Offices and Laboratories

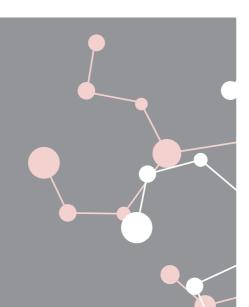

We offer small to large sized office floors to suit the size of your business in Tokyo and Osaka. Rental wet labs are provided in Tokyo and Chiba.

## **Overseas Facilities**

LINK-J Meeting Room @ UC San Diego YOKOHAMA • LINK-J Life Science Lounge @ NYC

## ACCESS

Nihonbashi Life Science Facilities are located in a convenient location that is about a 10-minute walk from Tokyo station and many subway lines are available. Nihonbashi is also a place with a high concentration of commercial facilities with many historic buildings while serving as a hub for business activities.

Join us for creative innovation!
