AFSSI, by et for R&D entrepreneurs

- » AFSSI represents companies involved in a **dual business model**, investing a significant part of their revenues in **R&D** to update and broaden their technology offering in order to **run research programs on behalf of third parties**. They manage a long term process to support their growth.
- » **AFSSI provides advocacy, internal relationships, communications services** for the members both large and small companies.
- » AFSSI challenges are driven by the vision of **life science companies as top players in international competition**. AFSSI works toward enriching the Life sciences industry with networking, partering and education opportunities
- » AFSSI entrepreneurs are consistent operators of life science development known as the new frontier of industry. Thanks to their know how and professionalism they make easier and faster **the market access of innovative products in pharmacy, cosmetology, agro-food, etc.**

Services and Innovative Companies in Life Sciences sector

An unique sector in Europe!

Born of a strategy of pharmaceutical companies to outsource certain phases of development, the sector of service companies and innovation has seen the birth of a multitude of **highly specialized and complementary companies**. These innovative companies evolve in the pre-clinical phases, but also clinical, constitute the force of our sector; **dynamic and highly qualified actors**, constituting a diversified fabric of scientific providers essential to the development of industries in the Life Sciences.
